

CUSTOMER TANK SENDER VOLUME CALIBRATION FORM

Please use this form to submit the Sender Level to Volume calibration.

Customer Name:	
Sender name/position:	
Device Instance:	

Enter your Tank Total Usable Volume and select units in the table below:

Total useable capacity	
Units (Please delete)	Litres / US Galls / Imperial Galls
Sender Length	mm

Either the boat builder can take dimensions from tank drawings or take measurements from an actual tank.

Only key shape changes need to be included, as in between volumes will be interpolated.

If a top offset is required make an allowance for the offset distance i.e. 10mm

EXAMPLE TANK CROSS SECTION AND MEASURING POINTS TO CONSIDER

SENDER LENGTH

The Sender length is measured from the underside of the unit to the end of the probe.

PERCENTAGE MEASUREMENT TABLE

Enter into the table below the Volume that you want to be displayed at a percentage of the sender length.

Percentage of level	Procentage of volume
100 %	100 %
0 %	0 %
